- Azure

## References

Dimcevski is a highly motivated developer who never steps back at any tasks, regardless of their difficulty. The modern day geek which is highly sought for in any shop/company carries with him his knowledge, experience and fearlessness, along with a high sense of awareness to new ways of solving old problems. Therefore, if knowledge, experience, fearlessness and a new way of thinking and problem solving is what you are seeking for, Dimcevski is your go-to developer. - **Marko Manchev**
